

# FRACTAL

SUPPORT BY THE EUROPEAN UNION  
THROUGH THE INTERREG ALPINE SPACE PROGRAMME: € 334.400

## Fostering Green Infrastructure in the Alps

The Alps are characterized by a variety of natural, agricultural, and small urban areas, where the connectivity between natural and semi-natural ecosystems is not always ensured. One of the most effective ways to support ecosystem services is implementing Green Infrastructure (GI) at local scale, but they are still scattered in rural and peri-urban areas. Building on the solutions developed by the LUIGI project, FRACTAL involves local stakeholders in the implementation of green infrastructure. The goal is to standardize the requirements to plan GI at municipality level, as well as to develop an education toolkit in order to raise awareness among citizens and pupils.

### Project Area

**Duration:** April 2023 – September 2024

**Project Budget:** 445.786 EUR

### Project Partners:

- Free University of Bolzano-Bozen  
Libera Università di Bolzano (Lead Partner)
- National Institute of Biology  
Nacionalni inštitut za biologijo
- Triglav national park  
Javni zavod Triglavski narodni park
- Wirtschaftsagentur Burgenland GmbH  
Burgenland Business Agency
